

Green Campus Initiatives at FSU

Adam Schlachter
Leon County Recycling Coordinator
Member-FSU Sustainable Campus
Committee

Projects

- Garnet & Gold Goes Green
- Sustainablecampus.fsu.edu (Developed in partnership with Johnson Controls)
- FSU-Save@fsu.com
- Earth Day Fair

Garnet & Gold Goes Green

- Baseball & Football seasons are times of high visibility at the University.
- It was determined that kicking off sustainability efforts during home games provided a significant return on the time/money invested in the program.

Garnet & Gold Goes Green

- Program has support from all levels of administration.
- Collaboration between the Athletics, Facilities, Waste Management and Community Partners including the City of Tallahassee & Tri-Eagle Sales.

Garnet & Gold Goes Green

- Offers a great opportunity for student involvement.
- Student groups act as Recycling Promoters by distributing bags for trash & recycling to tailgaters.
- Recycling bins are strategically placed at Stadium entrances & throughout the parking lot. The promoters encourage fans to recycle around the containers.

Garnet & Gold Goes Green

Garnet & Gold Goes Green

Results:

- During the '05 Baseball Season-1 ton of recycling was collected.
- During the '05 Football Season-7 tons of recycling was collected.
- The '06 season will be managed by the FSU Environmental Service program, expanding the student's role in making recycling happen on campus.

Sustainablecampus.fsu.edu

- Developed by students in collaboration with Johnson Controls, the University's Energy Consultant.
- Designed as a central portal to highlight all of the university's environmental efforts, programs and research.
- Works with community partners to highlight local programs outside the campus.

Sustainablecampus.fsu.edu

FSU-Save@fsu.com

- Email address & team dedicated to environmental issues at the University.
- Developed to create a way to start a dialogue about waste/recycling, energy or water issues accessible by anyone who wants to use it.

Earth Day @ FSU

- Collaboration between FSU Departments, local agencies, community partners.
- Highly visible placement on campus to encourage the students to stop and look at the displays.
- Initiated, planned and executed as a student run initiative with minor assistance from the administration.

Earth Day @ FSU
