

# MARION COUNTY SOLID WASTE DEPARTMENT

## TEXTILE RECYCLING PROGRAM

## TEXTILE RECYCLING

- 18 Sites on county property
- Plus multiple locations elsewhere i.e. shopping malls & gas stations
- This program generates revenue for the county bi-annually

## TEXTILES RECYCLING

- The county leases the land to a local recycler for the placement of the recycling collection containers
- This program has diverted from the local landfill approximately 800 tons or 1,600,000 pounds of clothes and shoes within the last three years from the start of the program
- Each recycling collection container is locked and water tight, which the contractor services each bin once a week
- At all 18 recycling centers there are one to two recycling collection containers depending on the flow of material coming into the sites

## THANK YOU

**Dennis Slifer**
